INNOVATORS IN TECHNOLOGY

**Metal Improvement
Company**

Subsidiary of Curtiss-Wright Corporation

Medical applications

Enhancing the performance
of metals and materials

www.metalimprovement.co.uk

**CURTISS
WRIGHT**

MIC MARKETS INCLUDE:

- **Aerospace**
- **Architectural**
- **Automotive**
- **Chemical & food processing**
- **General & structural engineering**
- **Marine**
- **Medical**
- **Military**
- **Off-road & earth moving equipment**
- **Oil, gas & petrochemical**
- **Power generation**
- **Railways**

MIC SERVICES INCLUDE:

- **Controlled shot peening**
induces engineered residual compressive stresses
- **Shot peen forming**
creates curvature and corrects distortion
- **Laser peening**
induces deeper residual compressive stresses
- **Engineered coatings**
improves performance, prevents corrosion and aids lubricity
- **C.A.S.E.™ (isotropic finishing)**
removes surface asperities reducing friction
- **On-site processing**
provides services on customers' own premises
- **Peentex (architectural finishing)**
creates decorative and aesthetic texturing
- **Surface texturing**
applies a textured engineered finish
- **Peenflex mouldings**
protects against processing and handling damage
